

Extreme Endeavors & Consulting

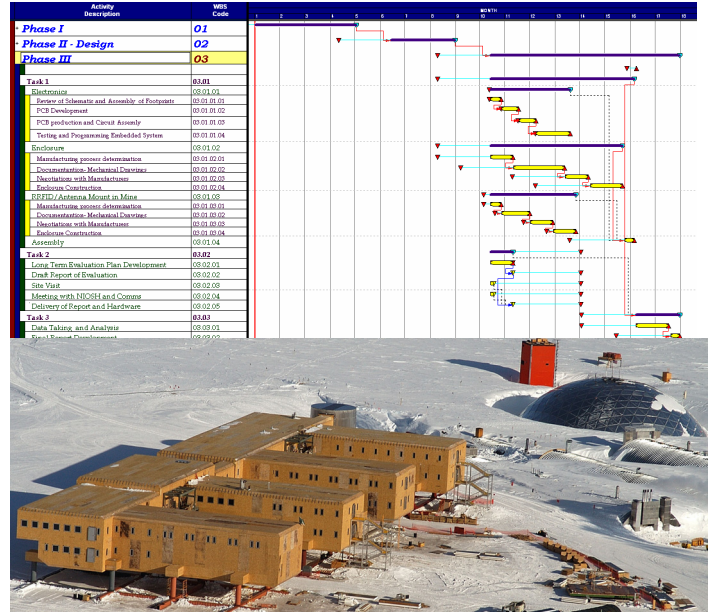

Engaging Austerity Through Innovation

Project Management

- Experienced in project management throughout the world.
- Tasks ranging from software development to construction projects.
- Utilizing the project management methodologies as defined by the Project Management Institute.

Tools we use...

- Suretrack Project Management Software by Primavera.
- Compartmentalization of the project is provided through a well planned Work Breakdown Structure.
- Preparation and Analysis of the following:
 - Budgeted Cost of Work Scheduled
 - Actual Cost of Work Performed
 - Budgeted Cost of Work Performed

A Few of the Projects our Staff has Managed

- ❖ Construction of the South Pole Station.
- ❖ Software Development for Extraction of Heart Rate information from Noise.
- ❖ Development of Radio Astronomy Telescopes.
- ❖ System Installations into Hellhole and Schoolhouse Caves.

Our Project management experience throughout Antarctica has taught us how to deal with significant delivery times, inhospitable conditions and to remain on schedule when faced with the most violent working conditions in the world.
